

To our Customers and Friends,

The last several weeks have brought unprecedented challenges to our lives. Our families, businesses, communities and our world are experiencing circumstances not previously seen. As we navigate in this ever-changing and concerning environment, we are continuing to place the health and safety of our customers, employees and the community at large at the forefront of everything we do.

FOR CAREY BROS. REMODELING CUSTOMERS WITH PENDING PROJECTS:

We remain open! We recognize that many of our customers have projects underway, and require our services for the safety and comfort of their homes. **Please be assured that even under the latest federal, state, and county orders regarding the closure of businesses, certain projects underway have been deemed essential. We are doing our best to “make safe” and secure these essential projects until such time as we may safely return to complete our work. In the meantime, we appreciate your patience and understanding as we all get through this together.**

We continue to follow the latest CDC, state, and county guidelines to ensure the safety and welfare of our teams while providing these services. This includes:

- All of our team members have been trained to uphold safe hygiene practices under the guidance of the Centers for Disease Control and Prevention.
- Our crewmembers are equipped with the proper equipment including masks, hand washing stations, hand sanitizer, and regularly-maintained temporary toilets as part of regular OSHA requirements.
- We are vigilant in how we work in and around your home, and now more than ever are maintaining dust and damage protection and wiping common areas with single-use disinfecting wipes.
- Enforcing our policy of not allowing employees who are ill or showing signs of illness to come to work or into your home.

FOR THOSE INTERESTED IN A CAREY BROS. REMODELING PROJECT CONSULTATION

We remain open! While we recognize that your home remodeling project may not be at the forefront of your mind today, we are still open and available to discuss your needs. In the interest of the safety of our design consultants, to you and your family, and the public, we **are adjusting our standard in-home design and consultation process to be a virtual experience**; if you have a computer, tablet, or smart phone, and about 30 minutes of time to connect with one of our designers, **we are still able to discuss your proposed project, share ideas, discuss finishes, and identify the needed investment for your project.**

And, because it is our hope to keep as many of our team members as possible working, we are offering some of our very best promotions. For example, **we will offer NO PAYMENT, NO INTEREST, 12 months same-as-cash financing to our clients who qualify on approved credit.**

So, If you're at home and find yourself with extra time to think about that new bathroom, functional kitchen, spacious addition, or dream remodeling project, please [book a virtual appointment today.](#)

We appreciate your continued interest and trust in us as we navigate these times. We look forward to providing you the 'Ultimate Remodeling Experience', even under these circumstances.

With prayers and best wishes to you and your family,

Morris & James Carey
